IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.Tradúzcalo o hable con alguien que lo entienda bien.

LUPIN LODGE FAILED TO SAMPLE FOR LEAD AND COPPER DURING THE 2022 THROUGH 2024 MONITORING PERIOD

Our water system recently violated a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what you should do, what happened, and what we are doing to correct this situation.

In November of 2024, staff at Lupin Lodge and Cypress Water Services realized that lead and copper sampling as required by the state was not made within the required time window of June – September. Lupin Lodge inquired whether sampling could be done when this was discovered, but was advised that samples would not be accepted until taken during the June – September 2025.

What should I do?

- **You do not need to boil your water or take other actions.**
- This is not an emergency. If it had been, you would have been notified immediately. Tests taken during this same time period did not indicate the presence of bacteria in the water.

What happened? What is being done?

Lupin Lodge has contracted with Cypress Water Services to conduct the sampling needed in June 2025 to fulfill the testing requirements.

For more information, please contact Charles Kuo at the Lupin Lodge office at (408) 353-9200 or Miles Farmer of Cypress Water Services by phone at (831) 920-6796 or via mail at:
